A Message from the President

Fellow Members,

Your elected leaders are committed to maximizing your membership value and benefits with the IAPSC.

The IAPSC is the type of organization where your direct involvement will exponentially increase your output. Meaning, you get out of it what you put into it. We see it is our role to position the IAPSC to bring those maximum benefits to Members and to the Security Industry. The vehicle we use for that is the Strategic Plan (Plan). The Plan is historically maintained by the IAPSC Vice President, who stewards it and reports semi-annually to the Board of Directors on progress toward goals.

Frank Pisciotta
IAPSC President

The Plan is currently organized under two strategic objectives:

1. Increase Visibility and Raise Awareness of IAPSC outside IAPSC; and
2. Continuously improve the value of IAPSC Membership investment

The more we can have the IAPSC name out there, the more potential clients we believe we can attract to seek consultants through the association. It is important for members to have their IAPSC web profiles up-to-date, so that when a prospective client searches on a particular skill or industry, your name will appear on the list. Joining IAPSC was a smart business decision.

As we approach the 30th year of our existence, we want you to know that a lot goes on behind the scenes to ensure you get the very best return on your membership dollar investment. And you can get the best return on your investment when you put yourself into it.

Have a topic or news story that you think should be

The Conference Committee is hard at work developing a program catered to our IAPSC membership and fellow security industry professionals. The Committee is interested to hear from you about the topics you want to see covered and activities you want offered.

Please take just a few minutes (approx. 5-10), to complete [this survey](#).

What's Happening in IAPSC

Meet A New Member: Robert Holm, Sr. Director of U.S. Security, McDonald's Corporation

Robert Holm

Mr. Holm has over 30 years of corporate security experience and has created, managed, and/or lead successful security organizations for six global companies. Currently he is responsible for directing a security organization that supports McDonald's USA. His responsibilities include developing and executing security plans and programs as well as overseeing the management of security matters for company owned restaurants, regional and divisional offices, and the direct security consulting services provided to owner/operator restaurants.
