Charlie Howell is a technology professional who has over 35 years of experience in the security and technology industry. Charlie has a unique skillset of designing technology that is driven by how the client will be operating and using the space being designed and built for them. His experience with projects from the early conceptual conversations to post occupy operational reviews brings this unique perspective to each project. Charlie's experience includes professional sports stadiums and arenas, convention centers, police departments, fire departments, schools, water and wastewater projects, commercial and private clients. His ability to apply the concepts of security into these different types of organizational structures highlights how he puts 35 years of experience into each project.

Eric L. Piza, Ph.D. is the Lipman Family Professor of Criminology & Criminal Justice, Director of Crime Analysis Initiatives, and Co-Director of the Crime Prevention Lab at Northeastern University. His research agenda focuses on the spatial analysis of crime patterns, evidence-based policing, crime control technology, and the integration of academic research and police practice. Dr. Piza has published over 70 peer-reviewed journal articles and 3 books. In support of his research, Dr. Piza has secured over \$6.7 M in competitive grants. Before entering

academia, Dr. Piza served as the GIS Specialist of the Newark, New Jersey Police Department, responsible for the day-to-day crime analysis and program evaluation activities of the agency. He received his Ph.D. from Rutgers University.

Jay Meil is vice president of Innovation and Asymmetric Technology and the Chief Data Scientist at SAIC, where he leads AI and asymmetric technical strategy and oversees solutions that enable rapid decision-making at scale in support of multiple intelligence disciplines and command, control, communications, computers, cyber, intelligence, surveillance, and reconnaissance (C5ISR). He also chairs SAIC's AI Council. Outside of SAIC, Meil is on the Security Industry Association (SIA) AI Advisory Board, has been invited to be a member of the National Institute of Standards and Technology (NIST) U.S. Artificial Intelligence Safety Institute Consortium, and advises Congressional committees on topics related to AI. [See full bio here.](#)

Mark Lamb is best known as the American Sheriff, but it wasn't always the case. After being a business owner for over a decade, he joined the world of Law Enforcement in his thirties and has thrived as a leader in his field from day one. Valedictorian of his training class, Rookie of the Year, Officer of the Year, Detective of the Year, and now Sheriff of Pinal County, he has always risen to every challenge in his path. His empowering leadership style, western attire, and huge smile have set him apart from his peers and his no nonsense approach to Law Enforcement has made him a beacon of hope to many in his county and all over the world. [See full bio here.](#)

Mark Schreiber is the President and Principal Consultant at Safeguards Consulting, a security design and consulting firm in Greenville, South Carolina. Mr. Schreiber's security career

has spanned almost 30 years in design and consulting roles within the engineering and construction industry. For the majority of this time, he has been directly responsible for the complete design of large enterprise physical security systems from conception to design completion and oversight. [See full bio here.](#)
